

VOLUME 61

April 2022

NUMBER 4

IISE-SJDVC132 Website: <http://paulsehnen.wix.com/iiesjdvcpc>

Theme: Webinars
See information to right on the wide variety of webinars being offered by IISE and other professional societies

Chapter members are invited to set up a site tour of their employer's facility for the chapter's membership, in exchange for half off membership dues for a year. The tour ideally should include at least one topic of interest to IISEs, examples automation, just in time, lean, logistics, etc. The brief proposal should include the name of the employer, the location of the facility, the approximate size of the facility, a sentence or two about the focus of the proposed tour, any date or time suggestions and/or restrictions for the tour, and contact information for a contact person who can arrange such tour.

March Events

Careers in Quality: Getting to Yes in a Competitive Job Market

Date & Time: Wednesday April 6th, 2022, 6:30pm to 8:00PM EDT

Webinar Takeaways:

- Options for a Career in Quality
- Overcoming Limiting Beliefs
- Virtual and In-Person Networking
- Important Tips for Resumes
- Getting Past and Applicant Tracking System
- Interview Magic

Additional Resources

About the presenter: Janet Lentz is an iPEC Certified Professional Career Coach with 20 years in quality systems management. Her experience spans several manufacturing industries, including chemicals, semiconductor, automotive and aerospace. Janet is currently the program chair for Philadelphia ASQ and an ASQ NextGen mentor.

Meeting Instructions: To register for this meeting, please contact Scott Cornish at scornish@memberleader.asp.org. Please contact me by Tuesday, April 5th at 6:00 PM ET. I do not have access to my ASQ WebEx account during the day and will not be able to register you in time to attend.

PRESIDENT'S MESSAGE

Greeting! And happy Spring!

One of the consequences of the global pandemic is highlighting the supply chain. Material shortages and logistical issues have risen to the forefront of the economy. What has worked to varying degrees of success is now being questioned and challenged.

Today, more than ever, we need ISE professionals to step up to the challenges and opportunities all around us. We are the ones best equipped and most capable of facing the problems confronting our businesses and industries in the United States. I urge you to get involved, to share your energy and support by helping our country expand and strengthen our manufacturing base and improve our logistical infrastructure. In doing so, we'll have a stronger economy & more prosperous and secure nation. There seems to be broad political and corporate support for the rebuilding of our US Manufacturing Base.

There's a lot of challenges in the world today; a lot of opportunities. I think it's a great time to be an ISE professional. Our country has thrived on challenges because of our secret sauce; our people! We cannot do it without you.

Our chapter programs are still virtual, and I hope you have been able to take advantage of them. However, the 2022 IISE National Conference promises to be an old fashion/new fashion on location event of the year! As you probably already know it will be held in Seattle, Washington during May 21 thru 24. This promises to be an enlightening event with hundreds of educational sessions. I hope you can make the conference; learn, energize, and get motivated for the good work ahead of you!

CAR ARTICLE

Foul!!! – NOT!

Football is definitely a contact sport; you could get hurt – even with protective gear. Basketball is a non-contact sport – unless you play in the Big 10, the Big East, my backyard, or any other place teams endeavor to succeed. Perhaps I'm already conceding that basketball too is a contact sport – contact that might qualify as a foul. But that would still be part of the game – and the game is better off with it. Contact, here also, is part of the game and is a good thing.

Perhaps a poor analogy, but our Chapter is interested in more contact with YOU. The IISE-SJDV board has expressed the desire for more contact with our general membership. In recent years our monthly programs were our only interaction. Of course, the monthly presentations/dinner meetings and plant tours were (up to about two years ago) in-person events that easily allowed for interaction usually over a fine dinner. Hopefully, in the near future it will continue to be our primary interface. But another way we can improve in the communication is to say "Hey" at least when you're coming into the chapter. With our chapter board running a bit shorthanded; we've gotten away from this important practice. But it's a good practice & one I will get going again. You are important to us! You make the chapter!

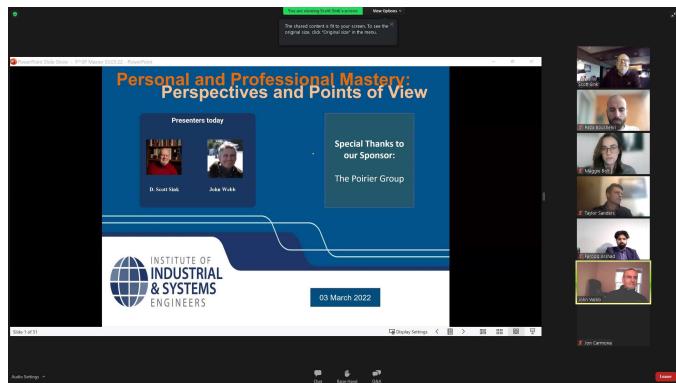

We do value your membership, participation, and feedback. In a professional society, contact is a good thing.

Of course, always feel free to contact a board member for any professional issue; that's why we have contact information in each newsletter. Let us know what you think – what works, what doesn't, and what can work better. We won't cry foul! We get hurt when there's a lack of contact. – JPM

Event Report

IISE held a webinar on March 3rd that covered Personal and Professional Mastery: Perspectives and Points of View on how to Continue to Develop yourself

A good topic which covered with John Webb that discussed some of the tools and techniques used in their 5-day “boot camps.” A lot of ideas that individuals could use for themselves or their teams.

Industrial/Mechanical Junior Engineer

KRG Enterprises, Inc.

Philadelphia, PA 19114

\$65,000 - \$85,000 a year - Full-time

Full Job Description

We are currently seeking a motivated individual with 0-5 years of experience to be part of a global engineering team. Must have a working knowledge of construction methods using wood metal and glass. Plastic manufacturing or injection molding is a plus. Individual must be able to work independently as well as with a team under tight deadlines. Strong communication and organizational skills will be necessary as well as attention to detail. We are a strong, forward thinking company that designs and produces custom retail environments, store fixtures, point of purchase displays, and architectural millwork including food service environments. KRG Enterprises, Inc is located in Northeast Philadelphia, PA. We value creative, innovative minds who are looking for a collaborative working environment with room for growth

Responsibilities:

- Fluent in AutoCAD Inventor, or have other 3D modeling skills and be willing to learn Inventor.
- Able to deconstruct designs or concepts into components for manufacturing. Create complete BOM's and drawing packages for internal and external manufacturing.
- Create build instructions for internal or external assembly.
- Design and engineer retail displays and fixtures.
- Ability to read and extrapolate architectural prints for necessary information.
- Some hands on shop floor work for educational experience of best practices in manufacturing.

"You've got folks in healthcare and people in services and hospitality and manufacturing. It's really great to sit back and see that even though somebody in manufacturing has a job very different than somebody who works in a hospital, they deal with the same issues. ... I just love learning about all these different perspectives, and I don't get that same diversity at other conferences."

Renee Thiesing, IISE's newly elected senior vice president, industry, on a recent episode of Problem Solved: The IISE Podcast

Secure Your Spot in Seattle!

Why attend The IISE Annual Conference & Expo 2022, May 21-24?

1. Reconnect and reunite with your family of industrial & systems engineers – building and expanding your professional network.
2. Visit a dynamic city that is home to top engineering/technical firms – Amazon, Apple, Boeing, Lockheed-Martin, Tableau and more.
3. Tour 100s of educational sessions that will provide up-to-date best practices, tips and tricks that you can take back to your organization.
4. See how leading organizations have conquered the COVID-19 conundrum in your sector.
5. See who takes home the coveted IISE Cup!!!
